

SERIES AV/SMV SURFACE MOUNT and PLUG-IN

Hi Voltage 600 to 1000 VDC
Hi Reliability
Ultra-Miniature - Low Profile
Isolated DC-DC Converters

This series of unregulated high voltage DC-DC converters are produced in an ultra-miniature encapsulated package. 40 different models are available. These single output isolated units will operate over the temperature range of -25° C to +70° C with no heat sink or electrical derating. For military applications an operating temperature range -55° C to +85° C is available. An optional environmental screening package per MIL-STD-883 is also available.

FEATURES

- 1.25 watt output at 70° ambient
- Ultra-miniature size 0.500" height, 5.0 grams weight, 0.125 cubic inches volume
- 4 input voltage ranges 5, 12, 24 and 28 VDC
- 100 megohm @ 1500 VDC input/output isolation
- MIL-STD 883 options available
- No heat sink or electrical derating required

OPTIONS AVAILABLE

- Per Mil. Std. 883
- Expanded operating temp. (-55° C to +85° C)
- Stabilization Bake (125° C ambient)
- Temperature Cycle (-55° C to +125° C)
- Hi Temp, burn

TYPICAL CHARACTERISTICS:

- **Test conditions:** 25° C ambient and input voltage at nominal value unless otherwise specified.
- **LINE REGULATION:** OUTPUT IS DIRECTLY PROPORTIONAL TO THE INPUT.
- **Input voltage range:** ±10% all models
- **Output voltage tolerance at full load-nom. Input:** ±3%
Please keep loaded to minimum of 10% at all times.
Note: For tighter output voltage tolerances, please consult factory.
- **Converter frequency:** 20 - 40 KHz
- **Output temperature coefficient:** 0.02%/°C for all models
- **Operating temperature:** -25° C to +70° C ambient. No heat sink is required.
- **Storage temperature:** -55° C to +125° C
- **Isolation:** 100 Megohms @ 1500 VDC

* Measured using 0.01µf, 3000 Volt DC capacitor which is required across the output and maintain at least 10% of load at all times to prevent voltage surge.

**For tighter tolerances consult factory.

Ordering Instructions: No minimum. Net 30 days F.O.B. Pelham, New York

SAFETY NOTE: The high voltage power supplies described in this datasheet generate voltages which can be lethal. They should only be installed and used by personnel who have received the appropriate training and who are fully aware of the hazards that exist.
