

# Series A & SM

1.25W Isolated Proportional Low Profile DC-DC Converter

**PICO**  
Electronics, Inc.

## PRODUCT OVERVIEW

The A & SM series are unregulated DC-DC converters in an ultra-miniature encapsulated package – 0.500" x 0.500" footprint. Over 200 models are available in both single and dual outputs. They can operate over the temperature range of -25°C to +70°C without derating, a heat sink or active cooling.

## FEATURES

- Up to 1.25W output at +70°C ambient
- Encapsulated semiconductors, conservatively rated for maximum reliability
- Ultra-miniature size – down to 0.300" height
- 5 to 48V input models
- Up to 250V output models
- Up to 1000VDC isolation at 100MΩ
- Input/output isolation
- Single and dual output
- No heat sink or derating required

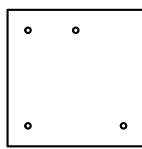

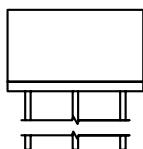

Contact Pico for part number of available options:

- Expanded operating temp: -55°C to +85°C
- Select screening per MIL-STD-883:  
Stabilization Bake  
Temperature Cycle  
Burn-In
- Available RoHS Compliant module
- Special Input Voltage, Output Voltage, Isolation Voltage or Output Power

Note 1: Maintain minimum 10% of rated load to prevent a voltage surge.

Note 2: For ≤48V output models, a 10µF, 75V high quality low ESR capacitor is required across the output. For ≥100V output models, a 0.1µF, 500V high quality low ESR capacitor is required across output.

Note 3: Tested at nominal input voltage and full output load.

Pico warrants each product manufactured by us and sold by us or an authorized representative, to be free from defects in material and workmanship. If properly used, it will perform within its applicable specifications for a period of one year after original shipment. Pico's obligation under this guarantee is limited to repairing or replacing our product to the original purchaser. This warranty is in lieu of all other warranties, express or implied and constitutes fulfillment of our obligations to the purchaser. We do not guarantee that the products can be used for a particular purpose other than those solely covered by the product's specifications. Pico must be notified if the product must meet particular certifications and/or standards. We assume no liability, in any event, for consequential damages, for anticipated or lost profits, incidental damages or loss of time or other losses incurred by the purchaser or any third party in connection with products covered by this warranty or otherwise. The purchaser will indemnify and hold Pico harmless for any damages, losses, costs, etc. from usage not within the product's specifications. Pico must be consulted before usage of its products in a nuclear, radioactive or space environment.

We reserve the right to discontinue products without notice. We reserve the right to make modifications to any existing catalog products without notice, at any time, without the obligation to modify units previously sold.
